World renowned CV19 critical care and pulmonary expert Dr. Pierre Kory says the data is clear the CV19 injections are "not safe, not effective" and shows they are causing a huge number of deaths. It's going to get much worse if we don't stop the shots. Dr. Kory warns, "They already

broke death records with these vaccines almost a year ago. Now, you are starting to see it in actuarial data with life insurance companies. The life insurance companies have been paying out claims like they never have before, and they are noticing the deaths cannot be explained by Covid. If you look at the actual morbidity and mortality from the CDC . . . 2019, 2020 and 2021 in the ages of 18 to 64 . . . you'll see in America, starting in quarter two of the year 2021 (when the vaccines started), the mortalities started to rise, and it rose from 120% above normal to 140% above normal, and it's far exceeded the death rates in 2020. The difference in 2020 and 2021, we had covid in both years. In 2021, we had the vaccines. They know the amount of deaths they are reporting cannot be explained by Covid. . . . There is something else driving a huge and extremely terrifying mortality signal in the U.S. population. To think that it is anything but the vaccines, if we get this wrong and if you keep saying they are safe, that line which is already in a significant and steep incline will continue the more we boost and the more we vaccinate. . . . This has to stop. We have to stop, people are dying."

Meanwhile, the captured regulatory agencies like the CDC and FDA are trashing and cutting off proven scientific cures for Covid such as Ivermectin. Dr. Kory says Ivermectin has been proven effective in defeating Covid infections, and he says, "It is "one of the safest drugs ever brought to market." Dr. Kory also says the so-called experimental vaccines "are not safe and not effective." So, why do government agencies push them anyway? Dr. Kory says, "I have had a front row seat to see this." . . . And he goes on to say government agencies are suffering from "regulatory capture" by big Pharma. Meaning, the FDA and CDC push ineffective and dangerous vaccines so Big Pharma can make money off them, while disregarding cheaper, safer and more effective drugs like Ivermectin. Dr Kory gives a real-world example during the pandemic and explains, "Prescriptions in this country (for Ivermectin) in August were hitting 90,000 per week. So many doctors were using it for Covid that it spooked the pharmaceutical companies. . . . In response to the massive uptake in the use of

Ivermectin by physicians with prescriptions and pharmacists filling them, the CDC went on the attack. They sent a bulletin to every state department of health which was full of propaganda and misinformation screaming the [FDA has not approved Ivermectin \(for treating Covid\)](#) and it's not a proven drug, and it's dangerous and there are overdoses and all of these things that were false. It went to all state departments of health. But guess what happened next? The medical boards and the pharmacy boards started sending that to every licensed physician and pharmacist in the land. The average physician and pharmacist, I am sorry to say this, is not well read. They are not keeping up with data. They are overwhelmed and they are easily influenced. That's why in this country you have a war between the physicians that know that Ivermectin is effective . . . and are at war with the pharmacies. A huge proportion of pharmacists will refuse to fill a decades-old safe drug for Covid because they have been threatened and manipulated by their boards. They are afraid to lose their licenses. It all smoke. It's all B.S. because you cannot lose your license for use of a safe drug. . . . We need our doctors to do doctoring, and we need our pharmacists to do pharmacy and stop being influenced by propaganda by pharmaceutical companies who don't want you to use this drug. We have to stand up, and we have to resist on behalf of our patients. We are finding that with compounding pharmacies and small pharmacies we can still get access (to Ivermectin), but it is a battle and you do have to navigate.”

Former Pfizer VP Dr. Michael Yeadon said this week, “Max vaccination is leading to mass death.” Dr. Kory agrees and explains, “It's not only data from a life insurance company that came out this week that is based on CDC data that can't be explained by Covid alone, there are huge increases of dying in this country this year. . . . They have done huge analysis of the European mortality data as well as the U.S. mortality data and they controlled for vaccination status. They found that for every age range that they looked at, the all-cause mortality of the vaccinated were increased over the unvaccinated. All-cause mortality and that means that you are more likely to die of something if you are vaccinated. . . . All-cause mortality are coming out of actual databases by credible scientists. You have life insurance companies showing the data, and you have our own federal government showing unexplained large rises in dying. . . . Don't you think a good scientific question and a good hypothesis to test would be 'Could these be the vaccines?' The answer is 'the vaccines,' and I cannot find a better fit to answering that hypothesis than that, it's this mass explosion of this vaccination policy with single, double and booster shots. It's going like wildfire through the population. If the mortality of the vaccinated is higher than the unvaccinated, you have the data that you can safely and confidently conclude the vaccines are associated with and causing death.”

In closing, Dr. Kory says, “What has happened in the last month or so is the data for adverse reactions and effects are no longer hidden and suppressed. They are coming out on servers . . . and actuarial tables.”

GOD save President Trump.....

AN OPEN LETTER TO PRESIDENT DONALD TRUMP

To: President Donald Trump:

On Maria Bartiromo's Sunday Morning Futures, and on Life, Liberty & Levin's episode recently, President Trump once again, even now, despite VAERS events of deaths published by the CDC, bragged about his endorsement of all three "vaccines." This is DISGUSTING! The leopard has not changed his spots. HORRIBLE! President Trump is pushing a bioweapon which will cause over 200 million Americans to die!

On "Justice with Judge Jeanine" on October 30th, in a live interview, once again you bragged and took credit for fast-tracking three "vaccines" in Operation Warp Speed. You took pride in that and said that "the vaccines work." Are you kidding me? You know better! Shame on you! Tens of thousands are DYING from adverse reactions to OPERATION WARP DEATH!

My question to you is this: Are you living inside a plastic bubble at Mar-a-Lago and have no idea how horrifically the "vaccine" kills people, or are

you part of the Global Genocide Conspiracy of Bill Gates, Klaus Schwab, George Soros, and Beagle Puppy-Murderer-Demon Tony Fauci?

How can you say that you do not know how the “vaccine” is not a vaccine at all, because it does not produce antibodies to cure COVID, but instead is made of Messenger RNA containing spike proteins and prions comprised of graphene oxide and graphene hydroxide that turns blood to sludge and contains microscopic shards of metal that cut to pieces every blood cell in the human body over time, causing blood clotting, lung paralysis, mitochondrial cancer, and death? Do you not know that graphene oxide steals oxygen from your heart, lungs, blood, and brain until there is no oxygen left to sustain life? Have you looked at the VAERS statistics lately to see how much damage the so-called “vaccine” has caused, keeping in mind that only between 1% and 10% of Vaccine Adverse Events are ever reported to VAERS?

Have you never seen any videos or lectures by Dr. Sherri Tenpenny, Dr. Carrie Madej, Dr. Christiane Northrup, Dr. Lee Merritt, Dr. Jane Ruby, Dr. Simone Gold, Dr. David Martin, Dr. Joseph Mercola, Dr. Peter McCullough, or your very own doctor, Dr. Vladimir Zelenko, warning everyone that the “vaccine” is nothing more than a Eugenics Depopulation Lethal Injection Bioweapon? Have you ever taken the time to listen to even one podcast by Brighteon.tv/Brighteon.social Health Ranger Mike Adams?

On the other hand, many of us have seen the video of you together with Satanist Klaus Schwab at the 2018 World Economic Forum in Davos, celebrating and ushering in the “Great Reset.” What was that all about, Mr. President?

Cutting to the chase since I know you are very busy: Do you want to be remembered as the greatest president in United States history who protected our Republic from Socialists and Marxists; who defended our borders; who made us energy independent; who knew how to end the war in Afghanistan without leaving \$86 billion in equipment behind and without ever leaving Americans and Afghan allies behind like the Crash Test Dummy in the White House right now did? How you never allowed insane regimes like North Korea or Iran to develop nuclear weapons? or —

Do you want to be remembered as the president who did not take responsibility or ever apologize for OPERATION WARP DEATH, which ultimately will lead to the wretched agony, demise, and death of over 200 million Americans?

Proverbs 16:18 says that “Pride comes before a fall.” All you have to do is admit that you listened to so-called “experts” like Criminally Insane Tony Fauci, and that you did not realize until it was too late that they had and still have the most evil and demonic intentions. All you have to do is put your pride aside and tell the American people that you made a horrible mistake about the so-called “vaccine.” There are many Republicans who took the Lethal Injection after you endorsed it and are seriously injured or dead. It was not just Democrats and Independents who took the kill shot. You truly need to atone to them. If you speak out now, the America I know will love you for it.

Maybe you did not receive my 138 emails that I sent to you at [pressoffice@donaldtrump.com](mailto:pressoffice@donaldtrump.com), but one year ago in October of 2020, I begged you not to push the “vaccines” as part of your campaign. Your former Pastor, David Sorensen, said the same thing, just as I did, that if

you push the Lethal Injection, you would never be elected, because God would never condone it. Now you are looking at 2024. Okay. However, I don't think you've even considered how many Americans will be dead by then from the death jab, or even by the midterm elections next year.

I am just one person – a nobody. But a good 25% of your base of patriotic Americans are questioning why you ever promoted OPERATION WARP DEATH without researching the harm it will do. I hear people wondering about that wherever I go.

What I will gladly do is write a speech for you if you want one, letting the American people how sorry you are and how much regret you have for encouraging them to be "vaccinated" with Pfizer Poison or Moderna Murder. And that you should have done it already, but your pride got in the way, but that you can no longer keep silent about your guilt over it. And how you listened to Fauci and thought that he and the CDC had the best interests of the American people at heart when you stood next to him in the Rose Garden, but then admitting: "Boy, was I wrong!" Do this, and you will come out on top, admitting your mistake, and even now at this late stage, saving a lot of lives of the "undecided" who are still considering taking the Lethal Injection. You are the best president we ever had, but you are only human. Tell America that. Even Sean Hannity took the shot because he believed in you. You were not a medical doctor. You relied on Luciferian Fauci to your detriment as well as the detriment of the American people. Eventually Satanthony Fauci, Bill Gates, George Soros, and Klaus Schwab will be tried in a Nuremberg-style court and hopefully guillotined or shot in front of a firing squad.

It isn't even about your future run for the presidency. It is about your legacy. How do YOU want to be remembered 100 years from now? Your destiny is ultimately up to you.

Meanwhile, I am supporting Dr. David Martin for President in 2024, since his platform is to eliminate the Experimental Use Authorization Eugenics Depopulation Lethal Injection Bioweapon also known as OPERATION WARP DEATH. In my opinion, he is the ONLY ONE who can save our Republic from collapse, since you, President Trump, are unwilling to do it. I hope you prove me wrong. But unfortunately, just as Brighteon.TV Health Ranger Mike Adams said on his December 21, 2021 podcast, Donald Trump is nothing more than a shill and a whore for Big Pharma, just like Crash Test Dummy Biden is.

Respectfully,

Steven Fishman Dated: January 8, 2022

Trump was the creator and still the endorser of OPERATION WARP DEATH. God won't save him, because with all of the people dying from the Experimental Use Authorization Eugenics Depopulation Lethal Injection Bioweapon, he belongs to Satan and there is a special compartment in Hell waiting for him, and for Demented Pedophile Crash Test Dummy Joe Biden, and for every member of the Senate and the House of Representatives who has failed to stop the Vaccine Holocaust.

This is far worse, the media was at least covering the number of deaths in 1976, the vaccine companies could be sued and damage claims were paid. Today the media is owned by pfizer and are not covering anything negative about the injections, they cannot be sued, there are no claims being paid to anyone. Adverse reactions and deaths are ignored, suppressed and or censored. This is horrific!

I know so many that are vaxxed and some with 3 shots. One of them are my best friends parents. The dad is over 90 his mom is near 80 his sister and husband all have 2 shots. My 85 year old aunt got the jab her family got it. I have friends and cousins that got jabbed. So far nothing has happened to them. I haven't had a chance to watch the episode yet so I don't know if you've asked this but how come these shots aren't affecting everyone equally? Are some people getting placebos for the first or second shot? I don't want any one to die but shouldn't these people be getting some type of adverse reactions by now?

You can check your vaccine lot number at <http://www.howbad.info>

5% of batches are causing 90% of adverse reactions.  
Some batches were 100% more toxic than other batches  
Data analysis shows statistically that the companies were

testing various combinations of ingredients which is known as a lethal threshold test. This proves INTENT which can be used in court for class action suits

You should look up and listen to Dr Zelenko's interviews and his research discussions. There is more to this shot than depopulation attempts. Maybe seek out x22 he did an interview today with him. The main agenda is the aforementioned but there is a deeper inclusion in these shots.

Greg.....You are one heckuva guy.....and God's loyal servant for sure. But to get to this interview.....in the first place, there are NO VACCINES.....for the umpteenth time. WHEN are these people in authority gonna stop calling these killer injections "vaccinations"? There is no Covid Virus.....none has ever been isolated. There may not even be an Omnicron.....I think Karen Kingston said so, too! "There are only the treated and untreated" is hogwash.....there are the jabbed and the unjabbed first, and then maybe some have been unjabbed, but the vast majority have been jabbed by at least the mRNA jab, and most likely a booster or two. This "politically correct" verbage MUST STOP NOW!! We cannot dissent successfully without using proper terms and definitions in our speech. SPEECH is everything in this dissent against those that have been brainwashed by this whole shenanigan due to societal breakdowns. I could go on, but every reader on your site gets the gist of this situation. WE MUST STAND UP AND DISSENT.....our voices must be heard and therefore our terms of speech and verbage must be correct and defining.....end of story.

DO NOT sit idly by and not speak up against this total false narrative concerning these killer jabs, and the proven science behind them. There are many millions unjabbed that are clear thinkers.....unmoved by all the tactics used by the Elitists to bring this nation down and divert our attention away from the real issue. The real issue is a nuclear war on the horizon with Russia as the Biden Administration is poking the Russian Bear in his backyard not only in Ukraine, but now the CIA clandestine forces along with NATO forces have invaded and started a shooting war in Almaty, Kazakhstan.....on Russia's immediate eastern border. The people in charge of the USA is NOT the Biden Administration.....the Biden Administration are only the Puppet Government for this World Elitist and Satanic group that calls Ukraine their homeland. Wake up and smell the coffee before it's too late.....for all Americans.

All Veterinary medications are made by the same pharmaceutical companies and are the same as human meds. My pharmacist acknowledged this is true. The difference is the dosing. My Vet is an excellent doctor. We've spoken about ivermectin. He and his staff take the injectable ivermectin once a week. They take it orally. 1cc per 100 lbs of weight. For instance, the receptionist told me she takes 1.5 cc (for 150 lbs) in the last swig of coffee and chases it with some oj. Places like Tractor Supply sell the injectable for the large animals so it can be bought without an Rx. Use the accompanying syringe as the measuring device, and squirt your portion into your beverage.

Cheers to all of us who have resisted the vax so far. Just remember: if you ever have to get a blood transfusion, you're likely getting tainted (vaxxed) blood. You can store your own blood (an autologous donation) in a fridge but that's limited to 35-42 days. Frozen blood (a complex process you ain't pulling off at home) can stay good for up to 10 years.

If the mortality rates have increased 120% above normal to 140% above normal that is catastrophic!! Are you sure he didn't mean 20-40% above normal which is bad enough. If 120-140% is true that means death rates have more than doubled from what was normal. Greg, please check if this is not a typo! Maybe your guest is talking about a 20% increase which is still very serious.

**Dr. T**01/09/2022 • [Reply](#)

Sorry but Dr. Kory seems to be missing the main point here. He blames the pharmaceutical companies who are out to make profits over lives, when the real culprits are the power elite who planned this out years ago.

Unfortunately, the end goal is to exterminate the majority of Americans and much of the population in other western countries, which is what is now talking place. While obscene profits are being made, genocide is the main objective and the reason covid was unleashed in the first place.

If you want to know the motive, it has been right under your noses but no one has paid the attention they need to it. Before this decade is over, 70% or more of all the current jobs will be eliminated due to automation, robotics and AI. This is not conjecture, it is a fact that can be found if you only want to look.

During the Great Depression, unemployment was around 25% so it doesn't take much imagination to think what it would be like if three quarters of the population lost their source of income. And when that happens you can forget a universal base income. This might work in the short term but would fail long term leading to mass unrest which the power elite is totally aware of. The only solution is to eliminate the problem well in advance and you should all know what that solution is. As drastic as it sounds, it is the only option that makes sense and it is now being carried out right in front of your eyes.

So it's time to accept the facts as they are. You can bury your head in the sand and pretend this will all end someday and life will get back to normal. I'm here to tell you if covid or the vaccines don't get you, they have other methods on hand that will.

To sum it up for you, there is no white knight or divine intervention that is coming to the rescue. The die has been cast and your fates have been sealed. When the West falls the East rises like it or not. In any case, I'm afraid everything I've said will be proven right and sooner rather than later. If anyone thinks the last two years were bad you have no idea what is coming. Armageddon is now here.
