Systemic injustice: AG Barr let James Comey and other deep state criminal walk free

09/11/2020 / By Ethan Huff

For years, conservative Republicans have been patiently waiting with great anticipation for the day when James Comey, Barack Obama, Hillary Clinton, Joe Biden and other deep state traitors are finally arrested and held accountable for their high crimes and misdemeanors. But that day is **never coming**, it now appears.

As explained in a new episode of the Thomas Paine podcast, former FBI director James Comey, who was fired from his position for **committing treason**, as you may recall, is probably going to walk free until he's eventually judged by God himself, thanks to the get-out-of-jail-free card that he was recently given by Attorney General William Barr.

The latest deep state traitor to receive a pardon from AG Barr and his partner in crime, Connecticut U.S. Attorney John Durham, Comey will more than likely never see handcuffs, let alone an orange jump suit. He is now an untouchable, it would seem, and most of the country is too distracted with the upcoming election to even take notice.

As the Thomas Paine Podcast revealed **several weeks back**, Obama and Biden both already received their pardons earlier in the summer. And this latest intelligence reveals that Comey has joined them, presumably with many others who, rather than face justice, will continue

As reported by *True Pundit*, the Feds were specifically asked to ignore compelling evidence implicating both Obama and Biden in the federal government's illegal counterintelligence probe that was launched against the Trump campaign back in 2016.

Barr reportedly responded by granting de facto immunity to both Obama and Biden, who are now protected against any and all prosecution stemming from prosecutor Durham's lengthy investigation.

Many were perplexed as to why Barr, who is supposedly a conservative, would allow the entire saga to basically go down the memory hole and amount to absolutely nothing, which was further explained [in an earlier episode](#) of the Thomas Paine podcast.

What this all suggests is that Barr is just another deep state swamp creature who, like his predecessor, was all talk and no action. We are nearly four years into Trump's first term and not only is nobody in jail who should be, but these same nobodies have been given the green light to go about their lives as normal with no fear of ever facing justice.

If there is anything systemically unjust in American society that people should be protesting about, it is a situation like this. And it is all happening under Trump, who promised his supporters and the country at large that the swamp would be drained, which we now know to be a fraud based on these latest revelations.

There is simply no excuse for letting treasonous scumbags like Obama and Biden, not to mention two-time failed presidential candidate Hillary Clinton, roam free, no matter the political implications. These people are a direct threat to our very republic, something that Trump and his administration appear to have forgotten – assuming they are not part of the threat themselves.

Be sure to listen to [the Thomas Paine podcast](#) to learn why DOJ insiders are furious that Durham spent all this time conducting his investigation, only to have it railroaded by Barr.
