Uit gegevens van de Wereldgezondheidsorganisatie (WHO) blijkt dat in Haïti sinds het begin van de 'pandemie' slechts 837 mensen zijn overleden. Van de 11,6 miljoen inwoners van het land is 1,4 procent gevaccineerd.

Van 3 januari 2020 tot 7 juli 2022 zijn er 31.703 coronagevallen geregistreerd in het land. Op 24 juni waren er in totaal 342.724 vaccindoses toegediend.

Sterfterecord verpulverd

Ter vergelijking: in Israël, waar 72 procent van de bevolking is gevaccineerd, ging het aantal 'coronasterfgevallen' dit jaar naar recordhoogte. Ook in Finland, Denemarken, IJsland en Noorwegen piekte de sterfte door corona dit jaar. In die landen is ongeveer 80 procent van de bevolking ingeënt.

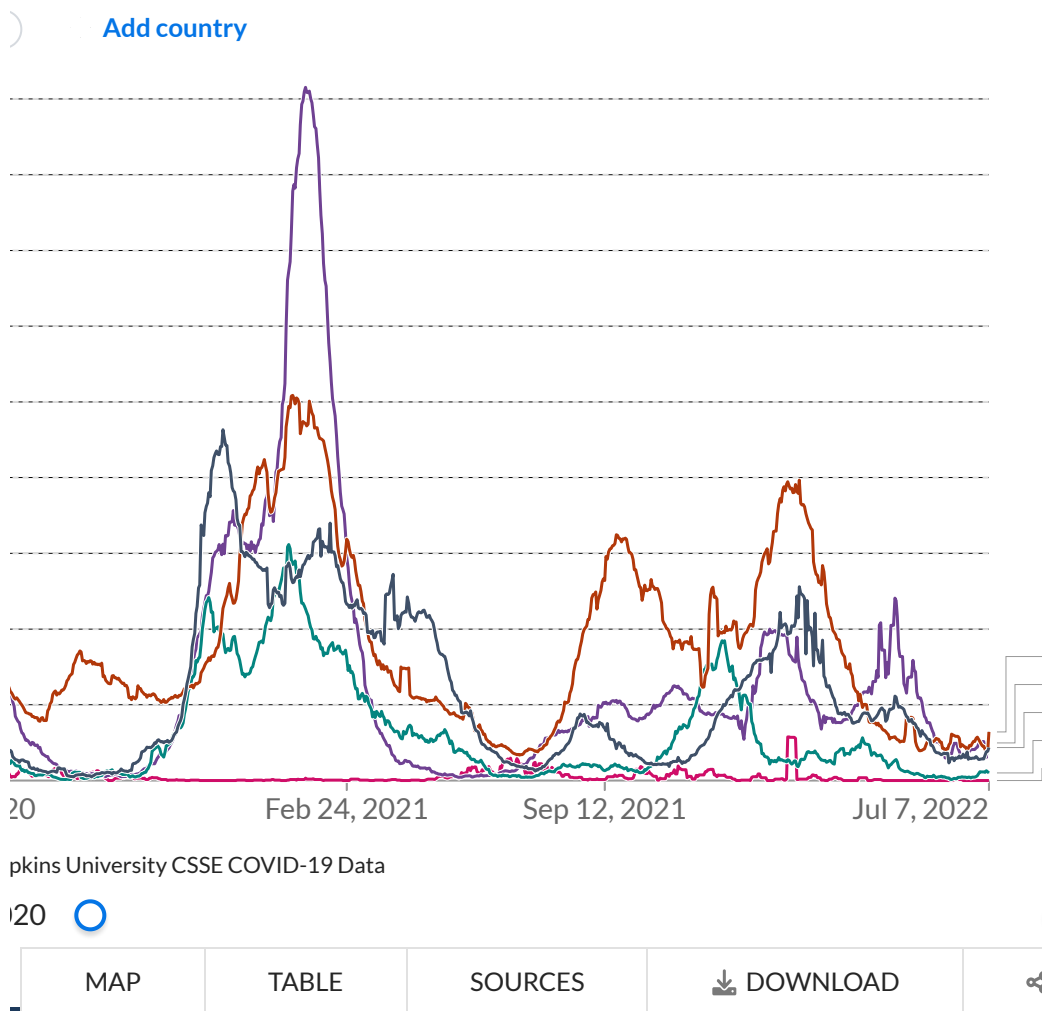

In Japan, dat een vaccinatiegraad heeft van 82 procent, werd het sterfterecord dit jaar verpulverd. En ook in Australië en Nieuw-Zeeland, waar bijna 90 procent van de mensen is gevaccineerd, blijft de sterfte snel toenemen.

Singapore heeft één van de hoogste vaccinatiegraden ter wereld en toch slaagde het land erin om recentelijk het sterfterecord te breken. Tot twee keer toe.

In contrast to countries that vaccinated the majority of their populations, Haiti has survived the impacts of Covid-19.

their highest death rates, some beating their records multiple times in the last few weeks.

What is worrisome is how long the waves are lasting. Last year, Denmark's wave lasted from middle of November till the middle of March. This year it started from the beginning of November and it doesn't seem to be letting up. This year's footprint is quite troublesome in all four countries.

Canada – 86% vaccinated

Canada did not beat its record death rate, but the latest wave started a month earlier and has thus far left a similar number of victims than last year. In other words, the vaccines did absolutely nothing...

Japan – 82% vaccinated

Japan recently experienced its worst death rate this year, doubling its all-time record. Masks and isolation didn't help either.

TGP previously reported just how [ineffective the Covid vaccines](#) are around the world. Let's look at how badly COVID-19 vaccines are doing in different parts of the world, shall we?

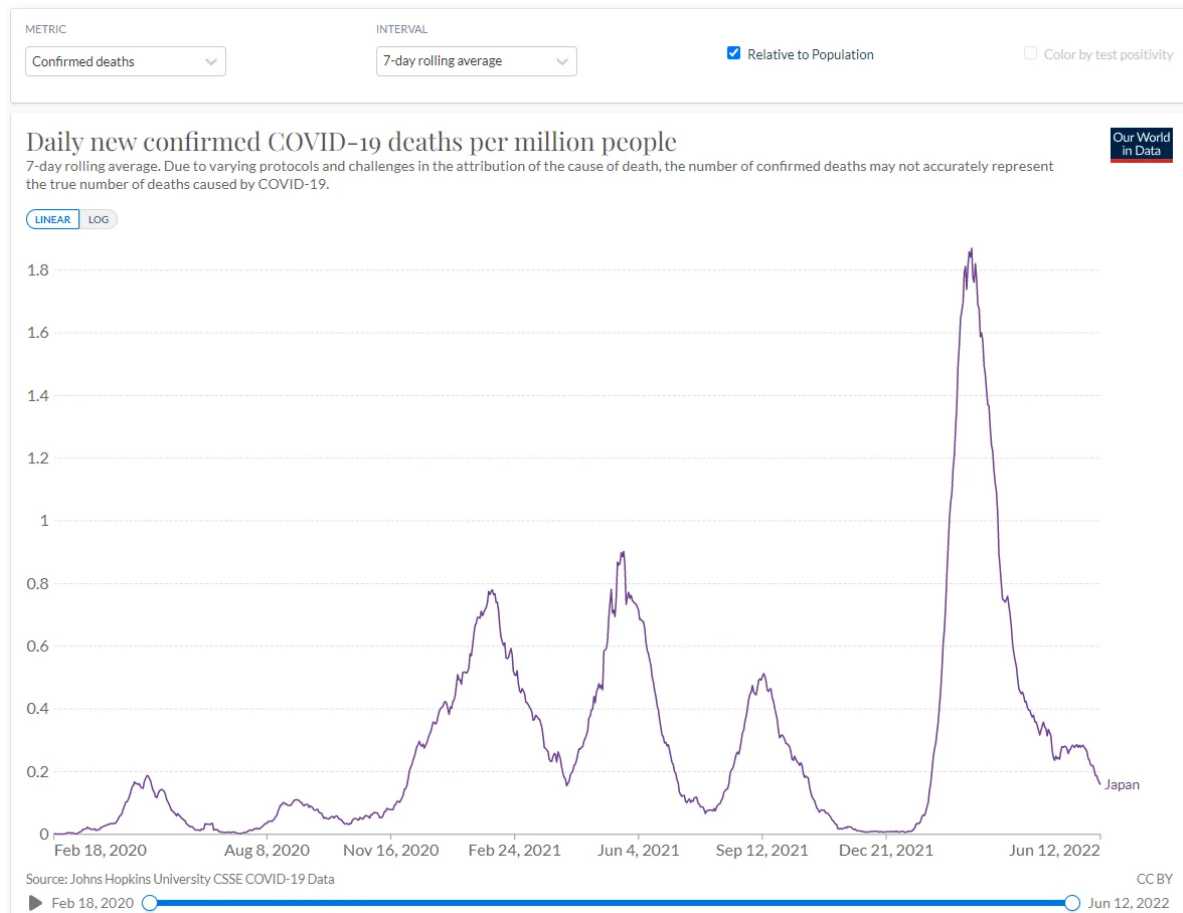

Israel – 72% vaccinated

Israel doesn't have a high rate of full vaccination (66%), but the country eagerly embraced all proposed boosters: four. Despite all that, Israel experienced the highest COVID-19 death rate on record this year.

Finland, Denmark, Iceland, Norway – 84%, 83%, 81% 79% vaccinated

All Scandinavian countries, except Sweden, recently got obliterated by COVID-19. Finland, Denmark, Iceland and Norway each documented

Australia – 87% vaccinated

COVID-19 is running through Australia like a brushfire. The country recently experienced a death record four times greater than at any other point during the pandemic, and the fire is still raging. Maybe a 100% vaccination rate will help, or mandatory booster shots every time someone wants to step outside?

New Zealand – 84 % vaccinated

Every time I see New Zealand's numbers I shake my head. What a beautiful country; what an inept government. They recently pulverized their all-time death rate. Maybe they will have more success containing cow farts.

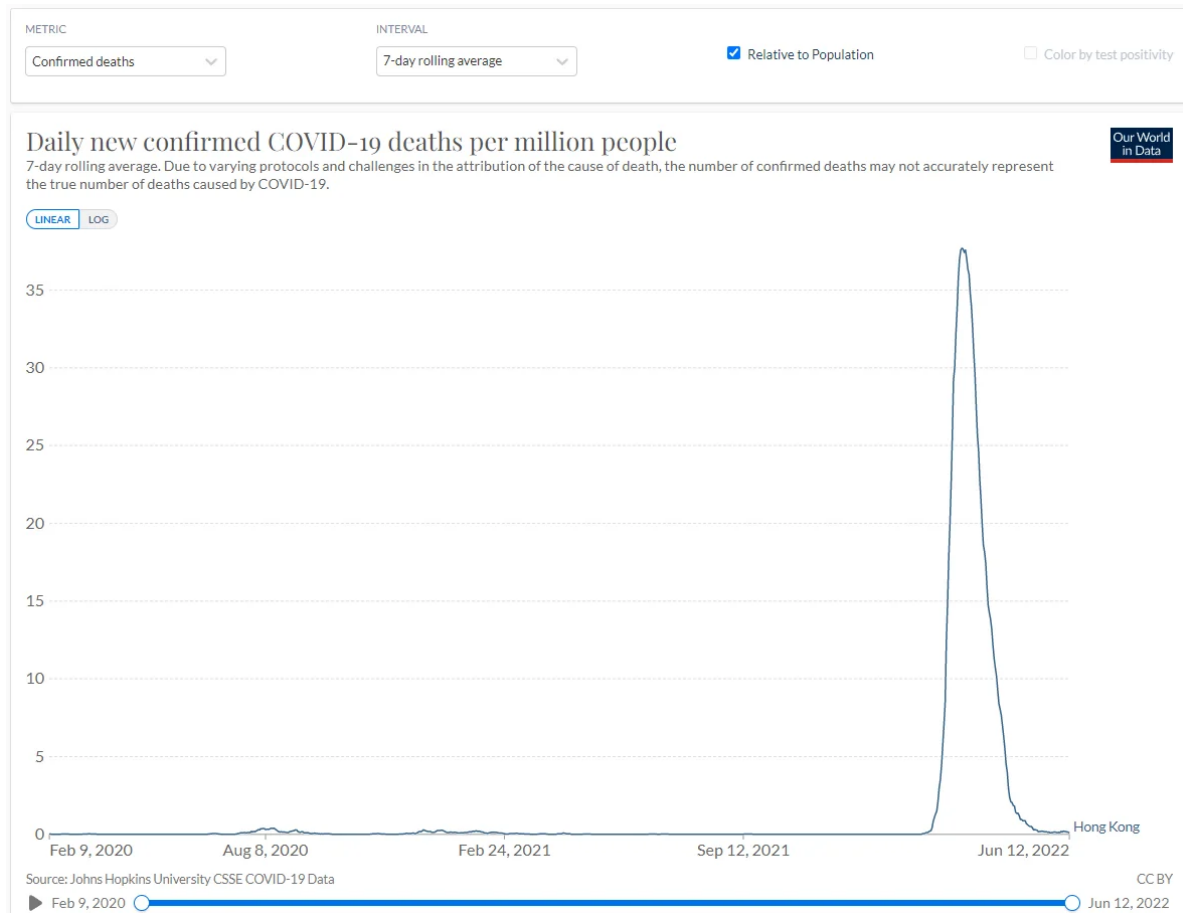

South Korea – 88% vaccinated

Once a shining beacon on how to deal with COVID-19, today South Korea stands at the foot of a monster death spike. It accomplished this with 86.95% of the population fully vaccinated.

Hong Kong – 89%

The chart speaks for itself. Either the vaccines didn't work, or the lockdowns only postponed the inevitable.

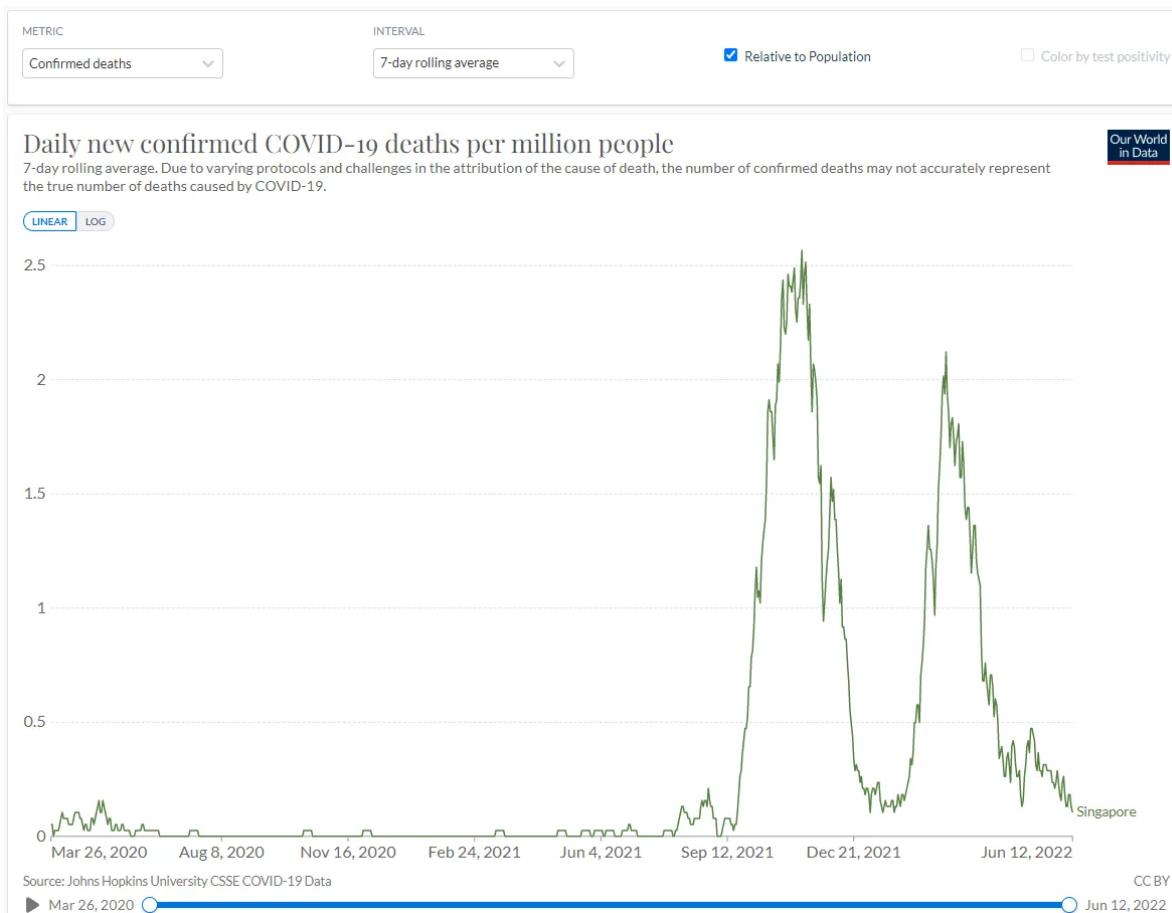

Malta – 92%

Another country that beat its all-time record. Malta even imposed fresh new lockdowns in January while the population was over 90% vaccinated.

Singapore – 92%

Singapore is one of the most vaccinated countries on the planet, and they recently destroyed their all-time COVID-19 death record... twice.

The vaccines are useless and prevent nothing. Herd immunity has always been the best way to go, as far as covid is concerned.

Their president paid the ultimate sacrifice; he was murdered by the globalists for saving his people.

The man is now their founding father and a hero all leaders everywhere can look to.

Same with several other African leaders who also refused the vax; I wish Europeans and Americans had had leadership at that level. We were all left to make one of two bad choices (job and license to be in public VS the clot shot).

They released a respiratory pathogen, it was planned and announced by the WHO that they would. It was released in the 2019-2020 influenza vaccination campaign with much fanfare.

You are exactly right COVID was the jabs, and was not the respiratory pathogen that was released. What was released was H1N1 combined with coronaviruses from dogs. It created enough symptoms of acute respiratory distress to 'get the people to become aware of the need for a pan-influenza, pan-coronavirus vaccine. -- Daszak's words in 2015.

The Hatians have seen this scam run at them before, so they were prepared.

They did a lot of things in a lot of places.

They obviously had some way to spread it artificially, but the main way it spread early on was by TV. I think they also spread it manually; I think they seeded it somehow.

The more we learn about bio-weapons we see examples of how they spread a bio-weapon manually. Obviously a bio-weapon has to be spread manually at least at first.

They have ways of spreading things to specific groups of people; that is probably one of them.

The technology would be classified as a military weapon always is, but we have seen them get caught doing it in a few cases.

What people don't realize about Haiti is the fact that they liberated their country from France, AND FRANCE CHARGED THEM \$\$\$\$ TO PAY BACK THEIR FRENCH OPPRESSORS FOR FINANCES LOST!!! Haiti was under tremendous debt for over a century...until a few decades ago!!! Thus the reason for it's poverty! It was on the level of making freed slaves pay back their slave owners because they lost money when they were

 their slave owners because they lost money when they were freed! It's easy to look at a country and ask why don't they do something!

And then the Clintons arrived...had their "honeymoon" in Haiti...which should tell you heaps! Started a hospital, which the last time I checked is yet to be completed!!! Built a road that left from the foreign own factories the Clinton's built, and went no where else!!! Child trafficking is another story...especially with their friend smuggling (STOLEN) children to Dominican R., and got caught!

Yes, I think it was the President of Tanzania who gave samples of used engine oil, a papaya and a goat's saliva for C19 PCR testing and they came back "positive".

He announced this to the world and told the WHO to get out of his country.

A few months later he died of "cancer".

There was genuine national mourning for him, his successor invited the WHO back into Tanzania.

Job done!

Yup...."Confirmed Cases" is a blatant lie. "Confirmed Case" means noting but "Positive PCR Test," which all here should be aware were/are a total fraud.

Actually, they don't even need a positive PCR, the rules allow anything to be recorded as Covid.

The IMF was also out to get the President of Tanzania who died. Same thing with Lukashenko of Belarus and the former President of Ukraine, Yanukovich. The IMF goes after any

Maybe that's why Shinzo Abe got assassinated. Japan exposed the toxicity of the "vaccines" to the world and removed them from the public back then. The Branch Covidian death cult is upset that they were exposed and not that many countries took it.

9 ^ | v • Reply •

extra salt → Dr. Death Faux-i • a day ago

I would say that death specifically could have a lot of different causes, but it is one more in the total of world leaders (leaders of nations) who were taken out in the last couple years.

Some were taken out of power with scams, we see that in the states, and some were removed with fraud, and some died unexpectedly, and some were openly shot.

Now even if this one has nothing to do with those that make up the rest of the number we still have an unusually large number and the number alone is proof. It is like the fact that a clinton associate may not have been murdered by the clintons; yep, probably a few of them died of natural causes or were murdered by men not sent by the clintons. But the total number in the cluster makes it impossible they all died of natural causes and from disputes with others.

He did also have strong ties to the WEF <https://www.weforum.org/agenda/authors/shinzoabe>

The people are very similar, but the DR has a lighter skinned population.

The DR has also been a much better place to live (see pictures from space) and Haitians illegally cross over to the DR and anyone in the DR born on the streets without papers is called a Hatian, and they have it pretty bad.

On this one topic this one time they had a single leader who did the right thing.

TRUE! And same with Africa! There was one African president who sent specimens to be tested under human names! The outcome he made public, there was a plant with covid, a couple of animals, etc., in other words, he exposed the sham!!! And he was killed within a week...replaced by a more "friendly" president!

Yep.The virus was never the event, except for being used to kill Trump's greatest accomplishment, a booming economy. mRNA "vaccines" was the event, the virus was just used to make people want it. I saw a panel discussion video of medical scientists from back before Covid where they were talking about future new vaccine technologies. One woman came right out and said it might take "some big event" to get people to accept something new over traditional vaccines.
